“ My brother you left us way too young, but you also left behind an impressive legacy! Losing you was like losing myself. I lost the one who I shared all my dreams and secrets with I need to know you are okay so I can move on, our bond remains unbreakable even beyond death. You are my hero and my heart and I will deeply miss your hugs and our talks, and when we meet again we will have so much to talk about. I love you my baby brother!
